👤 Professional Summary

Full Stack Java Developer with experience in Java, Spring Boot, React.js, Next.js, REST APIs, MySQL, and MongoDB through internships and projects. Skilled in building end-to-end applications with secure authentication, database integration, robust backend services, and responsive frontend interfaces.

📁 Professional Experience

Cognifyz IT Solutions Pvt. Ltd.

Full Stack Development Intern

Aug 2026 – Present

Remote, India

- Developed full-stack apps with Next.js, React, Node.js, and Spring Boot using REST APIs integration.
- Implemented secure authentication, database integration, middleware, validation, and Redis workflows.
- Used Docker, Git/GitHub, and Postman for application testing, API debugging, and frontend-backend integration.

Interland Technology

Software Developer Intern

June 2025 – Sept 2025

Kerala, India

- Contributed to RESTful API development using Java and Spring Boot, supporting backend feature implementation.
- Applied Spring Security and JWT authentication to secure REST APIs with role-based access control.
- Collaborated with a 6-member Agile/Scrum team using Git/GitHub, code reviews, and sprint planning.

✂ Skills

Languages: Java, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML5, Tailwind CSS

Backend: Spring Boot, Spring Security, Spring Data JPA, Hibernate, REST APIs, Axios, JWT

Databases: MySQL, MongoDB, Redis

Tools: Git, GitHub, Docker, Maven, Postman, AWS (Basics), ChatGPT, Prompt Engineering

🎓 Education

Biju Patnaik University of Technology (BPUT)

MCA

Sept 2024 – June 2026

CGPA: 8.5/10

Utkal University

B.Sc. Chemistry

Aug 2021 – July 2024

CGPA: 7.8/10

Vyasa Nagar HS School

Higher Secondary (+2)

2019 – 2021

🔗 Projects

HIVE – Real-Time Chat Application

Tech Stack – Next.js, Tailwind CSS, Spring Boot, Spring Security, JWT, WebSocket, MongoDB, Vercel, Render

[Link]

- Built a real-time chat application with email authentication, JWT authorization, and Spring Security.
- Implemented one-to-one messaging, message forwarding, read receipts, and message deletion.
- Built a responsive Next.js frontend with REST API and WebSocket integration using a Spring Boot backend.

FlowCache – API Caching Platform

Tech Stack – Java, Spring Boot, Redis, Caffeine, MySQL, Spring Security, JWT, Gradle, Docker, Docker Compose

[Link]

- Built a high-performance API caching platform using Spring Boot, Redis, Caffeine, and REST APIs.
- Implemented secure authentication, database integration, cache management, and API performance optimization.
- Dockerized the application with Docker Compose and managed the project build using Gradle.

Healthcare Appointment & Prescription System

Tech Stack – Java, Spring Boot, Spring Security, Spring Data JPA, React.js, MySQL, JWT, Tailwind CSS

[Link]

- Built a healthcare platform with role-based access, appointments, REST APIs, and MySQL using Spring Boot.
- Implemented JWT authentication, PDF prescriptions, email notifications, and responsive React.js UI with Tailwind CSS and Axios API integration.
